Beautifully updated vaulted bungalow backing onto the pathway system, low maintenance yard with pond views! Extensive renovations over the years have created a move-in ready sanctuary with central air conditioning and numerous other high-end upgrades. The current owners have meticulously maintained the home and have added even more upgrades including new roof shingles and 2 new vents (2021), 4 security cameras and keyless entry, a sprinkler system, new dog-friendly turf with a limestone base around the back deck plus a fenced dog-run, a new high-efficiency variable speed furnace, a new programmable smart thermostat, a new water softener, freshly painted main floor with beautiful accent walls, much of the lighting has been updated, all new toilets and so much more! The grand open floor plan with gleaming hardwood floors and soaring ceilings is perfectly situated to make the most of the view from oversized windows. Renovated in 2014, the kitchen inspires culinary adventures featuring a recently updated subway tile backsplash, a newer microwave (2021), a water filtration system with a drinking tap (2024), granite countertops, stainless steel appliances, timeless subway tile, a raised breakfast bar on the centre island and a walk-in pantry for extra storage. Adjacently, the breakfast nook is a casual place to gather or proceed through patio sliders to the back deck for a seamless indoor/outdoor lifestyle. Spend cooler evenings relaxing in front of the gas fireplace in the living room while oversized windows stream in natural light throughout the day. A formal dining room allows for tons of space for entertaining with great built-ins for both display and storage. The primary bedroom is a true owner's retreat thanks to the grand vaulted ceilings and updated ensuite boasting luxurious in-floor heating, an updated vanity with a modern sink and Kohler faucet, a

deep soaker tub and a large walk-in closet. Laundry was raised onto a platform and is conveniently on this level as is a handy powder room. The double attached garage is insulated and oversized (can even fit a Ram 3500 quad truck!). An electric fireplace flanked by built-ins creates a cozy ambience in the basement's family room inviting everyone to gather. This level is also home to another bedroom, a den/flex room that would be a perfect office or hobby space, another full bathroom, loads of storage with permanent shelving and even a built-in workshop which as well could be a potential bedroom. Barbeque or unwind on the expansive 25' rear deck with path and pond views as the tranquil backdrop. A fenced dog run and built-in irrigation keeps your yard looking its best. Ideally located within walking distance to schools, playgrounds, transit and the New Brighton Central Park featuring a clubhouse, spray park, ice rink, volleyball, basketball, tennis courts and more. Plus, close proximity to 130th Avenue allows for easy access to all the big box stores and oodles of restaurant options.
